

NIVA EDUCATION

ADVANCED COURSES ON OCCUPATIONAL HEALTH AND SAFETY

NIVA - The Nordic Institute for Advanced Education in Occupational Health - is a Nordic institute funded by the Nordic Council of Ministers. The aim of NIVA is to provide advanced education for researchers, practitioners and specialists in the field of occupational health and safety.

NIVA brings together top experts and knowledge from across the Nordic region and transforms research findings into advanced courses and seminars within the field of occupational health and safety for researchers and practitioners from the Nordic countries and beyond.

Some of our upcoming courses 2023

Applications of Biological Monitoring in Occupational Health, 3-5.10.2023, Online course

For more information and to see our full selection of courses, please visit www.niva.org

Can't find what you're looking for? Propose a course!

An expert or research institute can submit a course proposal that they see having a Nordic relevance, relevance to work environment or working conditions, and relevance to sustainable economies and labour markets. By submitting a course proposal, you get:

- funding for the training/activity that you want and have been missing
- a professional organizer for your activity – all practicalities will be taken care of by NIVA
- the possibility to build your international networks

Read more and submit your course proposal here: www.niva.org/propose-a-course
